

# ROBUST ALL-ROUNDERS

**LISTA drawer cabinets provide a robust and well protected storage option for equipment and many other items.** High-quality specifications and a variety of individual configuration options make these robust all-rounders ideal for a wide variety of requirements and environments. Their special design guarantees optimum space utilisation. In addition, housing and drawers can be variably partitioned, intelligently labelled, protected with access control and finished in almost any colour. Nowhere else will you find this degree of flexibility.

- + Utmost stability**  
load capacity of housing up to 4 t; load capacity of drawers 75 or 200 kg
- + Can be utilised to the full**  
since drawers can be fully extended and the drawer shell heights are optimised
- + Well protected**  
against dirt, liquids and mechanical load through closed housing with impact and abrasion-resistant surface
- + Outstanding safety features**  
safety catch to prevent unwanted drawer opening and anti-tilt mechanism to prevent opening of more than one drawer at a time
- + Corrosion protection**  
with electrophoretic dip painting and environmentally-friendly powder coating
- + Optimum order and organisation**  
thanks to special LISTA partition material for every purpose and perforated, slotted drawers
- + Professional labelling**  
with LISTA Script labelling software and clip-on label holders which fold upwards
- + Perfectly smooth running**  
through differential pull-out without a crossbar
- + Flexibly adaptable**  
through pre-perforated holes for table tops (punch-outs), rollers, drawers, locking systems for easy retro-fitting and refitting
- + Secure locking option**  
with interchangeable cylinder for adaptation to existing locking systems and electronic locking systems via CODE, RFID or AUTO Lock
- >> Fully compatible with LISTA partition material thanks to the standardised unit of measure** see p. 248

# Drawer cabinets

## + Maximum use of drawer space

### Optimum shell height

- drawer sides and rear panels the same height as the fronts
- maximum use of vertical space
- optimum protection against items falling out and loss of stored items

### Full extension

- maximum use of horizontal space
- everything in view
- optimum access

## + Perfectly smooth running

### Pull-out without crossbar

- perfectly smooth running and ease of movement through differential pull-out without a crossbar
- enables the drawer to be fully extended

### Quiet locking tab

- special plastic cover in the locking tab
- smooth and quiet locking process

## + Professional labelling

### Label holder which folds upwards

- on drawers, troughs, metal dividers, separators and housing
- for easy, clean and protected labelling

### LISTA Script

The LISTA Script labelling software offers:

- numerous labelling options
- pictograms
- barcode generator

As a LISTA customer, you can download our LISTA Script labelling software free of charge from our website under Products › Accessories › LISTA Script.

## + Partition material for every purpose

### The LISTA standard

Our drawer partition materials are standardised and therefore compatible with the entire LISTA range.

» Drawer partition material see p. 248

» LISTA Script slide-in labels see p. 268

# Benefits of LISTA storage systems

## Storage in drawers

Storing small parts in drawers rather than on shelves ensures that stored items are protected from dust and contamination while saving space and optimising organisation. The entire contents of the drawer are visible in no time, whereas with a shelf, items may have to be moved or reached over to gain access.

- The depth of a compartment can be adapted to suit the stored items at any time, and any number of parts can be placed one behind the other
- By simply pulling out the drawer, you can clearly see the contents and have everything within reach in a truly space-saving way

### + Example of space requirement

Usable depth  $4 \times 600 = 2400$  mm  
 Depth of aisle  $2 \times 1000 = 2000$  mm } Total 4400 mm

## Storage on shelves

- If the parts are smaller than the depth of the shelves, there is a lot of unused space behind the goods
- If the items are stored behind one another, then space is needed for both visibility and access

### - Example of space requirement

Usable depth  $8 \times 300 = 2400$  mm  
 Depth of aisle  $4 \times 800 = 3200$  mm } Total 5600 mm

## + Optimum order and organisation

**Plastic boxes and troughs**  
for small and cylindrical items

**Tool holders**  
for NC storage

**Metal separators**  
for different sized parts

**PE foam inserts**  
for special and measuring tools

### Perforated, slotted drawers hold items firmly in place

- a series of slots around the drawer walls hold the partitioning material firmly in place
- perforated drawer bases enable slotted dividers, metal separators, dividers, holding pins or milling cutter holders to be optionally screwed in place

LISTA Units	Depth 27 E				Depth 36 E

# Drawer cabinets

## + Flexibly adaptable

### Variable raised edges

- raised edges on three sides of stationary cabinets for simple and easy cleaning
- raised edges on four sides of mobile cabinets to protect the goods being transported

### Punch out

- housing covers with pre-perforated holes which can be punched out
- for retrofitting with a table top or second drawer cabinet on top

### Base/forklift base

- optional base and forklift base (for drawer cabinets with a width of 36 E and over)
- makes it easy to adjust the height of the drawer cabinet
- enables the loaded cabinet to be lifted and moved with a forklift truck

### Mobile cabinets

- Our mobile cabinets are supplied with:
- raised edges on all four sides and push-bar
  - black ribbed mat
  - two swivel castors with brakes
  - two fixed castors and single-drawer locking mechanism
- Stationary cabinets can be converted to mobile cabinets at any time.

## + Individual configuration options

As standard, LISTA drawer cabinets are available in seven different widths, two depths and a variety of heights. The configuration options in terms of size, equipment, locking system, colour and drawer partitions are almost unlimited.

Our drawer cabinets can be combined individually to suit any working environment in order to make maximum use of available space. They can be extended at any time and therefore offer a scalable solution tailored to your needs.

### Typical configurations

Configuration as a drawer cabinet

Configuration as a drawer cabinet with recessed hinged door, pull-out shelves and adjustable shelves

Configuration as a drawer cabinet with drawers, recessed hinged door, pull-out shelves and adjustable shelves

Configuration as a mobile drawer cabinet with raised edges and a push-bar

Toolbox: Drawer cabinet with combined drawer widths (64/36/18 E).  
Version: stationary or mobile

ESD version available on request

## + Outstanding safety features

### Single drawer opening as standard

- prevents the cabinet from tipping over by blocking all other drawers when one drawer is pulled out
- allows for drawers to be moved around into a different arrangement at any time

### Flush drawer front

- drawer handles with side covers which sit snugly within the front profile
- look good and are safe

### Safety catches

- comply with all regulations against drawers accidentally falling out of cabinets
- reduce the risk of injuries at the workplace
- can easily be deactivated in order to move individual drawers

### Information on load capacity

- the load capacity (75 or 200 kg) is inscribed on the drawer runners
- increased safety

## + Extra safety for stationary and mobile cabinets

### Safety catch on right

- our standard safety catch for all mobile cabinets
- can be operated with one hand

### Single safety catch on the right and left

- especially suitable for mobile equipment
- both hands are needed to operate them

### Double safety catch

- has all the same features as the single safety catch on the left and the right
- easier to use since it can be operated with one hand

### Lilo locking device

- with external lever for fixing the fully laden drawer in either open or closed position
- for a drawer load capacity of 200 kg

# Drawer cabinets

## Countless configuration options

### Covers

Raised edges on three sides and ribbed mat, Resin-coated cover panel, Multiplex cover panel, Raised edges on 4 sides, with push-bar (for mobile cabinets)

### Partition material

Slotted dividers, separators, trough walls, metal separators, label holders, plastic boxes and trough separators, milling cutter holders and holding pins, non-slip mats, foam inserts and much more.

### Inserts and add-ons

Drawers, pull-out and adjustable shelves, hinged doors

### Locking systems

KEY Lock, CODE Lock, RFID Lock or AUTO Lock

### Substructures

Housing base, 2-way pallet/ forklift truck base, Pairs of castor holders, individual castors and levelling feet

LISTA Units

1. Housing

- choice of various housing heights (A)
- the choice of housing always includes the choice of the preferred locking system and the colour

2. Drawers

- define the height of the front, the load capacity, the colour and the type of safety catch
- sum of the drawer front heights (C) = clear height (B) (see diagram)

3. Accessories

- can be equipped with drawers and doors
- select the cabinet accessories
- mobile cabinets must have a drawer safety catch and a push-bar

» Page 248

4. Partition material

- select the partition material for the drawers
- N.B.: take the drawer height and usable surface into account!

## 12 standard colours

### Maximum flexibility thanks to free choice of colours

All products with a choice of colours are available in 12 standard colours and 6 colour combinations without surcharge. The three-digit colour code (e.g. **.010**) forms part of the article number. When ordering, please complete the article number by adding the desired three-digit colour code (e.g. **70.701.010**). Housings and drawers can also be ordered in different colours.

**.010** Light blue  
RAL 5012

## Drawer cabinets | stationary and mobile

**In addition to the stationary versions, all LISTA drawer cabinets are also available as mobile cabinets.** This increased mobility provides greater convenience and gains extra space. Mobile cabinets enable you to transport stored items easily and quickly and can conveniently be stored under a work surface if space is at a premium.

**+ Greater mobility**  
through smooth-running nylon and rubber castors, depending on the properties of the floor

**+ Optimum use of space**  
when positioned under work surfaces

**+ Safe and convenient**  
thanks to raised edges all round, ergonomic push-bar and additional drawer safety mechanisms

**>> Benefits of LISTA  
drawer cabinets**  
see p. 38/39

## Equipped with drawers and doors

Drawer cabinets can optionally be fitted with drawers and a door. Because the door is recessed, special pull-out shelves are used. As standard, the two locks have different keys. Identical locks or a CODE/RFID Lock locking system are available on request (CODE/RFID Lock is not available for doors).

## 2. Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm, which means each drawer can be partitioned as required.

Select load capacity

### Drawer safety catches

**Standard:** standard model including single drawer safety catch (all article numbers from the table).

**Safety catch on right:** the minimum requirement for mobile drawer cabinets. One-sided drawer safety catch on the right can be released with one hand and prevents accidental opening of drawers even if the cabinet is unlocked.

**i** When ordering a **single safety catch on the right**, please add the suffix "R" to the article number in the table (e.g. **72.034.XXX.R**).

### Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the size. The sum of the drawer front heights (C) must be equal to the clear height (B) (see diagram).

## 3. For further accessories

» see next page

## 4. Partition material

for drawers

## Recessed hinged doors for pull-out and adjustable shelves

Made from sheet steel as a front closing option for the pull-out and adjustable shelves built into the housing beneath the drawers. Equipped with a recessed grip and magnetic catch incl. KEY Lock. The sum of the hinged door front heights and all drawer front heights must be equal to the clear height of the cabinet housing.

## Pull-out and adjustable shelves for recessed doors

Made from steel sheet, pigeon grey, NCS S 4502-B. Load capacity of pull-out shelf 75 kg, adjustable shelf 200 kg. Thanks to the 25 mm increments in the vertical supports of the cabinet housings, different shelves can be fitted in the same housing in any order.

## Raised edges on 3 sides and ribbed mat

Made from sheet steel, black, NCS S 9000-N, including ribbed mat, black.

## Cover panel, resin-coated

Surface and edging light grey, NCS S 1500-N, laminated chipboard (quality class E1), with melamine coating on both sides (manufactured according to standard EN 14322). 2 mm thick plastic edging on all sides. Including pre-drilled holes and fastening material.

## Multiplex cover panel

Made of steamed beech veneers, glued in multiple layers and waterproof (DIN 68 705), bevelled edges, sanded, oiled and waxed surface. The panel is splash-proof, dirt-repellent and largely impervious to oil and grease. Including pre-drilled holes and fastening material.

## Folding countertop

Attaches to the side of the drawer cabinet (depth 27E). It can be mounted either on one side or on both drawer cabinet edges and offers a work surface up to 1000 mm (2 x 500 mm) wider. It is operated one-handed. Multiplex top, sanded, oiled and waxed surface. Load capacity 25 kg, Housing incl. 10 x 10 square perforation, 38 mm divisions with slots, for cabinet height 850 mm.

## Push bar

This push bar can be mounted for the mobile version of drawer cabinets without raised edges in the transverse direction of travel. Galvanised steel, Ø 22 mm, curved.

## Perforated side panel

To allow accessories (waste container, protective earth socket retaining bracket) or keyhole hooks to be attached to the side of the drawer cabinet (depth 27 E), this perforated plate can be fastened to the side of the housing cabinet. Square perforation 10 × 10, 38 mm divisions with slots. Design for housing height 850 mm. Sheet steel design. Colour: as per colour chart.

## Housing base

Made from sheet steel, as height compensation, black, NCS S 9000-N.

## 2-way pallet/forklift truck base

Made from sheet steel for screwing to the underside of the housing, black, NCS S 9000-N. **Base cover only** for attaching as a cover on the front or rear.

## Raised edges on 4 sides, with push-bar

Made from sheet steel, black, NCS S 9000-N, including ribbed mat, black. Push-bar consisting of a pair of plastic handle grips, RAL 9006 white aluminium, and aluminium tube Ø 25 mm, clear anodised.

## Pair of castor holders

Consisting of 2 swivel castors with brakes and 2 fixed castors. Castor holders, sendzimir galvanised. Nylon castors black, rubber castors grey.

**For safety reasons, mobile drawer cabinets must be fitted with a push-bar and a single drawer safety catch.**

## Protective strip

Made of black polythene, including fastening screws for mounting on the sides of the drawer cabinet. Two protective strips must be attached to each side.

## Levelling foot set

Set consisting of 4 plastic pivot feet, Ø 50 mm, including mounting plates and fastening screws. Adjustment range: 45 – 90 mm. Load capacity: 1200 kg/foot. Art. no. **69.919.000**

## Levelling foot set for cover plates

Set consisting of 2 pairs of levelling feet (4 plastic articulated feet), Ø 50 mm, mounting plates designed for the levelling foot holder, incl. fastening screws. Adjustment range 45–90 mm. Load capacity 1200 kg/foot

## Levelling foot covers

made of sheet steel, powder-coated white aluminium RAL 9006. Cover plate height 50 mm. Prevents small parts from getting under the cabinet. Closed look. The levelling foot set (69.920.000 or 69.921.000) is required for assembly. Cover plate can also be retrofitted afterwards.

**Drawer cabinets with a power supply are perfect for the centralised supply of rechargeable batteries and electrical devices.** All cabinets can be configured individually and adapted to your specific storage needs through the flexible use of partition material, cabinet accessories and power supply via power modules.

**+ Flexible range of applications**  
with charging options for battery-operated electrical machines, BDE devices, notebooks, tablets and smartphones

**+ Perfect cable management**  
via cable openings (punch-outs) for protected and orderly cable routing

**+ Great design diversity**  
with sockets, on/off switch, power USB

**+ Outstanding safety features**  
CE compliant

**>> General benefits of LISTA drawer cabinets**  
see p.38/39

## 1. Cabinet housing

Housing incl. punch-outs for power supply, incl. cable harness, excl. connection cable with earthing (must be ordered separately according to the lower version). For simultaneous securing of all drawers. Incl. KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

**i** When ordering a cabinet with **CODE Lock**, please add the suffix "C" or for **RFID** or **AUTO Lock** the suffix "F" or "A" to the article number from the table (e.g. 74.915.XXX.C).

» Other locking systems: see p. 28–31

## 2. Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm, which means each drawer can be partitioned as required.

### Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the size. The sum of the drawer front heights (C) must be equal to the clear height (B) (see diagram).

\* Drawers with front height of 50 mm must be placed in the top position.

**Bespoke workshop design to suit your line of work.** Workshop equipment from LISTA has been tried and tested thousands of times in diverse industries. The modular design and excellent quality ensure that LISTA applications fit perfectly, are durable and robust. Special industry requirements are consistently met.

**+ Modular system design concept**  
offering flexible configuration in terms of size, equipment, locks, colour, etc.

**+ Best industrial quality**  
by using high-quality materials with a high level of in-house production and a 10-year guarantee

**+ Fully compatible**  
with freely combinable modules, uniform and attractive look and feel consistent with your corporate design in all areas: workshop, warehouse, staff room, etc.

**+ EDGE design**  
More contouring for your workshop with an individual light signature

**>> Benefits of LISTA workshop add-on modules**  
see automotive workshop system brochure

## Toolbox

### Folding countertop

Integrated folding countertop module, single-handed operation. Load capacity: 25 kg. Multiplex top: 564 × 500 × 20 mm. Designed for drawer cabinet depth 27 E and drawer cabinet height 850 mm. See page 73.

### Perforated rear panel for Toolbox 64 E

Self-supporting perforated rear panel module, direct mounting on the drawer cabinet. Square perforation, 10 × 10 mm, 38 mm divisions with slots for holding accessories, usable height 360 mm. Colour as per colour chart. W × H: 1193 × 550 mm See page 73.

### Countertop

This multiplex worktop has been specially adapted to the 64 × 27 E drawer cabinet to ensure a flush transition to the folding countertop Multiplex top: 30 mm (W × D: 1193 × 572 mm).

### Cabinet toolbox 6427E/3 and 6436E/3

The toolbox system for dimensions 64 × 36 E and 64 × 27 E (H: 850 mm) offers the flexible option of accommodating combined drawers in the dimensions 64, 36 and 18 E. See page 73. There are also various accessories that allow the cabinet to be individually configured as a small mobile workstation.

### Perforated side panel

Integrated perforated side rear panel module with 10 × 10 mm square perforation, 38 mm divisions with slots for holding accessories. Designed for drawer cabinet depth 27 E and drawer cabinet height 850 mm H × D: 755 × 570 mm. Sheet steel design. Colour as per colour chart.

### 1. Cabinet housing with locking systems

To have simultaneous locking of all drawers, each cabinet housing can be configured individually using the KEY Lock system.

Housing with KEY Lock

### 2. Drawers

Drawers with different front heights can be incorporated into the same cabinet housing in any order. The insides of the drawer walls are all fitted with a slotted grid in units (E) of 17 mm, which means each drawer can be partitioned as required.

#### Drawer safety catches

**Safety catch on right:** the minimum requirement for mobile drawer cabinets. One-sided drawer safety catch on the right can be released with one hand and prevents accidental opening of drawers even if the cabinet is unlocked.

**i** When ordering a **single safety catch on the right**, please add the suffix **"R"** to the article number in the table (e.g. **72.034.XXX.R**).

#### Ordering tips

When selecting drawers, the clear height of the cabinet housing defines the maximum size. The sum of the drawer front heights (C1 + C2) must correspond to the clear height (B1: 200 mm + B2: 500 mm), see diagram.

For further drawers, see p. 60/61

## Drawer cabinets I with hinged or sliding doors

**LISTA drawer cabinets with hinged or sliding doors are ideal for large and heavy inventory items.** The doors enable tall items to be safely locked away and protected from dirt, damage and unauthorised access. The flexible inner partitioning options and a variety of locking systems ensure that you have the best solution for your needs – all with lots of clever details and a 10-year guarantee. Just as you would expect from LISTA.

**+** **Additional storage space and work surfaces**  
through non-slip, easy-to-clean covers with raised edges all round

**>>** **Benefits of LISTA drawer cabinets**  
see p. 38/39

**>>** **Drawer cabinets with hinged or sliding doors for NC storage**  
see p. 76/77 and 100

**+ Ideal for large and heavy inventory items up to 200 kg / drawer**

with pull-out shelves for flush storage

**+ Securely lockable**

with a choice of hinged doors or space-saving sliding doors

**+ Can be adapted to new storage items at any time**

because drawers, pull-out shelves and adjustable shelves can be flexibly added or modified in 25 mm increments

**+ Can easily be moved with a forklift truck**

even with loaded cabinets, by using forklift truck bases

# Top-mounted cabinets for drawer cabinets

**Lots of storage in a small space: LISTA top-mounted cabinets provide additional storage area when space is at a premium.** The stored items are in plain sight and easy to reach because they are positioned at viewing height. LISTA top-mounted cabinets are perfectly coordinated with our drawer cabinets and made from high-quality steel. In short: the perfect add-on for fast access to tools and equipment supporting continuous improvement processes such as Kaizen and 5S.

## Extra storage area

when space is at a premium

## Everything in sight

through viewing windows made from UV-resistant shatterproof acrylic glass

## Extremely user-friendly

since the items stored are within easy reach

## Securely lockable

with a choice of hinged doors or space-saving sliding doors

## Can be adapted to new storage items at any time

because adjustable shelves can be flexibly added or converted in 25 mm increments

## Benefits of LISTA drawer cabinets

see p. 38/39

### Locking systems

The standard **KEY Lock** locking system with replaceable cylinders allows easy adaptation to existing locking systems. Further locking systems, e.g. CODE Lock and electronic locking via RFID transponder on request.

### Doors with viewing windows

Provide an open view of the contents and also encourage users to keep the contents tidy.

### Pin hinged doors

Doors are flush with the cabinet housing. Opening angle approx. 115°.

### Turn and push cylinder lock and smooth, quiet operation

Cannot be prised out thanks to a bar bent to right angles. The ball bearing rollers of the sliding doors run very quietly on the guide rails.
